Mr Steven Bertocchi
SBec Marine Pty Ltd
58 The Promenade
Mt Pleasant WA 6153

Dear Steve,

On behalf of The WA Maritime Training Centre – Fremantle, I'd like to thank you for the generous donation of the Offshore Hyball ROV. As you are well aware, the acquisition of this equipment will make an enormous amount of difference to the training experience we can offer to students. The increased potential for operations both in a training and possibly marine archaeology role is very exciting. Support from industry in general and individuals such as you make what we do for industry possible. The feedback we've received from the first students to use the vehicle validate its value to the school.

I'd also like to take this opportunity to thank you for your past efforts in the training of ROV pilot/technicians at the WAMTC. It is not easy to attract teachers with your knowledge of the industry and ability to transfer the information to students, knowledge and skills which would have given your students a fantastic introduction to the industry. I'm sure the wisdom you imparted has helped them to transition to what could be a very daunting career change.

Yours Sincerely,

Kingsley Waterhouse,
Director, Maritime
Challenger TAFE
